

# Re-thinking Data Collection for Evaluation and Program Improvement

Amy Kernin-Laye, Director, GEAR UP Idaho  
Urban Pelicon, Chief Information Officer, CoBro Consulting  
Carina Davio, Director of Client Relations, CoBro Consulting

GEAR UP West Conference, Portland 2013

# Welcome!

## Session Overview

- Introductions
- Common Challenges
- Team Session - Overcoming Challenges
- Solution Sharing and Discussion
- Q & A

# Who We Are

## CoBro Consulting

- ✓ CoBro Consulting is a research and consulting firm providing data management and evaluation services for college access programs nationwide.
  - Data management via Compass and CompassMatch
  - Program evaluation
  - Statistical data analysis
  - Survey design, analysis, & reporting
  - Comprehensive annual and biennial evaluation reports

# Who We Are

## CoBro Consulting

### Data Management Tools Created by CoBro Consulting:

- ✓ **Compass** is a secure student tracking system and database management tool that expedites data entry, runs reports and analyses, and generates APR data tables at the click of a button.
- ✓ **CompassMatch** is an in-kind contribution management system that allows you to easily record, calculate, and run reports of matching funds.

CoBro Consulting currently serves 33 GEAR UP state and partnership programs, nation-wide.

# Who We Are

## GEAR UP Idaho

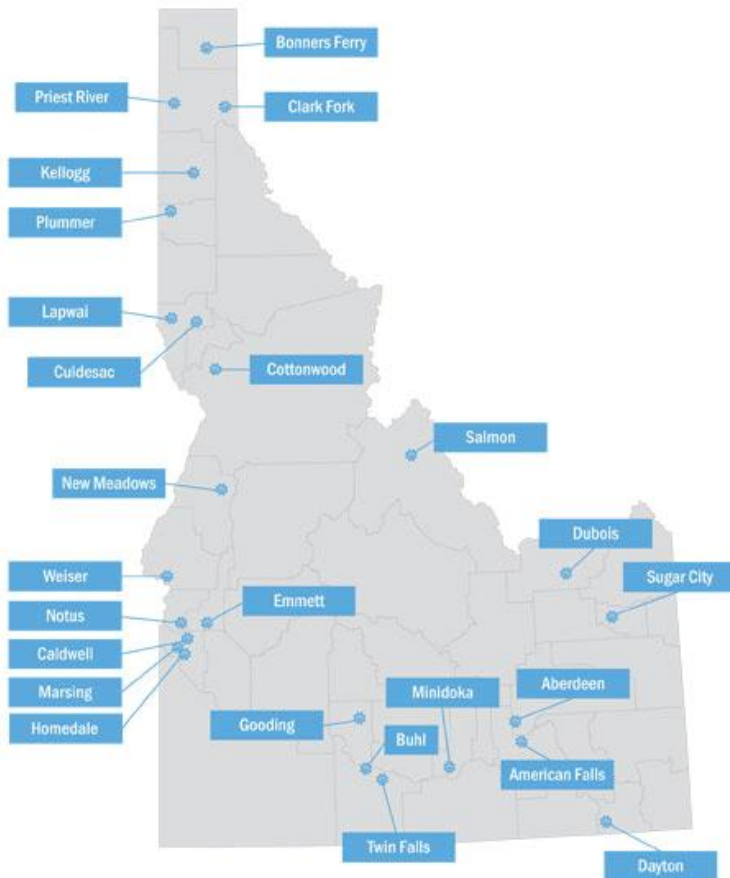

- ✓ Grant period: 2011
- ✓ Total award: \$22,769,208
- ✓ Average annual budget: \$3,252,744
- ✓ Implementation Model: Cohort
- ✓ Current Students Served: 5400

# Who We Are

## GEAR UP Idaho

Currently serving 25 School Districts across the state

Partner with 11 Post-Secondary Institutions:

- North Idaho College
- Lewis-Clark State College
- College of Southern Idaho
- Eastern Idaho Technical College
- University of Idaho
- Boise State University
- Idaho State University
- BYU Idaho
- Northwest Nazarene University
- College of Idaho
- College of Western Idaho

# Who We Are

GEAR UP Idaho

## Services:

- ✓ Student enrollment in rigorous and challenging coursework
- ✓ Administration and implementation of ACT's College Readiness System (EXPLORE, PLAN, ACT)
- ✓ STEM Tutoring
- ✓ Financial aid and financial literacy
- ✓ College awareness activities
- ✓ Career awareness activities
- ✓ Individual secondary and postsecondary planning sessions (academic counseling)
- ✓ Parent, family and community activities
- ✓ Professional development

# Who are You?

(GEAR UP Session Participants)

- ✓ Are you new to GEAR UP?
- ✓ What year was your grant awarded?
- ✓ Have you been with GEAR UP for more than a year?
- ✓ ...more than five?

A lot of collective knowledge in the room!

# Session Outcomes

- Understand common barriers to effective evaluation and "re-think" how to overcome them.
- Acquire tools and resources to be proactive against common evaluation challenges that may be encountered during program implementation.
- Leave with a network of peers to use as a resource in effective evaluation strategies.

# Trend in Federal Data Requirements

- ✓ In recent years, federal programs have embraced a common theme of data-driven decision making and the creation of a culture of evidence to promote formative program improvement.
- ✓ However, there are many challenges in gathering accurate and timely data, interpreting evaluation findings, and using the results to inform program decisions.

# Why is this important?

- ✓ Accurate and timely data is needed to:
  1. Ensure compliance with ED requirements and program administration.
  2. Examine program processes and promote continuous improvement.
  3. Inform stakeholders of the effectiveness of GEAR UP and the services it provides.

# Common Barriers

✓ Program components that often present challenges to effective evaluation:

- Administering & Processing Surveys
- Collecting Service Participation Data
- Collecting Student-Level Academic Data
- Completing the APR
- Using Data to Inform Decision Making

# GEAR UP Idaho

**Common Challenge:**  
Collecting accurate and timely data

# Data Collection

- ✓ It is essential to have a way to accurately manage data, record services provided to students, and generate reports or export data that can be used for evaluation of the program.
- ✓ The most efficient way to do this is through a data management system designed to manage GEAR UP student demographic, academic and services data.

# Compass System

## Data Management Tool

- ✓ CoBro Consulting's Compass System expedites data entry, organizes program data and generates real time reports. In addition, the system conducts statistical analysis to evaluate program success.
- ✓ Benefits of the Compass System for your Program:
  - Assists in entering and maintain student academic data. Data can be electronically transferred into the system.
  - Provides services and activity data entry screens designed for speed and accuracy that eliminate time-consuming hand entry.
  - Collects, organizes and automatically computes data for required ED reports and beyond.

# GEAR UP Idaho

## Challenge:

Who is responsible for supplying the data at the district level and what is the time frame in which data is provided?

# GEAR UP Idaho

## Solution:

- ✓ One point of contact
- ✓ Creating a report at the state level
- ✓ Setting 1 date

# Other Common Challenges

What are common evaluation barriers you have encountered during GEAR UP program implementation?

# Team Brainstorming

How can we “rethink”  
and overcome these  
common barriers to  
be able to use data  
effectively?

# Collective Knowledge

How did you “re-think” these challenges?

Tap into the collective knowledge of the GEAR UP community.

# Questions? Thoughts?

THANK YOU!
